Late Fees & Late Registrations

RLSA is committed to finding a place for every interested player. For the Travel League, it is important that players are registered on or before July 9th. Registering timely avoids the payment of a late fee and ensures that your player can be assigned to a team as well as makes it possible for the Association to register timely for tournaments. Registering your player late will require the payment of a late fee and may cause your player to be unable to play due to the maximum roster limit. For Recreation players, timely registration allows players and coaches to be assigned with ease and team assignments can then be announced approx. 2 weeks before the season start.

Volunteer Time

RLSA relies on volunteers to maintain and grow our program. Please indicate your volunteer preference during the registration process. Every season our biggest need is coaches. If you are interested, please email Info@RLYSA.com for more information on becoming a coach. We hope that all families will help out when and where they can. Thank you!
