Late Fees & Late Registrations

RLSA is committed to finding a place for every interested player. For the Travel League, it is important that players are registered timely to avoid the payment of a late fee and to ensure that your player can be assigned to a team as well as it makes it possible for the Association to register timely for tournaments. Registering your player late will require the payment of a late fee and/or may cause your player to be unable to play due to the maximum roster limit for their age group. For Recreation players, timely registration allows players and coaches to be assigned with ease and team assignments can then be announced approx. 2 weeks before the season start.

Volunteer Time

In order to maintain and grow our program RLSA relies on all parents to help out. Please indicate your volunteer preference during the registration process. For more information on volunteer options, please email Info@RLYSA.com. We hope that all families will help out when and where they can. Thank you!
